

Inspire XL

Empowering all people to communicate with their world!

Powered by Grid 3 Software

The Inspire XL is a medical device that allows users with severe speech impairments to communicate through technology! The Inspire XL is our largest speech generating device offering a screen size of 14" for easier visibility of the Grid 3 communication software.

Durable

The Inspire XL is extremely durable and is the toughest dedicated speech generating device on the market! The Inspire XL is built with military grade components and meets MIL-STD-810G standards and can be operated in any conditions. It's unique hot-swappable dual battery design also allows for uninterrupted battery life.

Multiple Control Methods

The Inspire XL can be accessed via multiple methods of input including: direct touch, assistive touch, single switch, multiple switches, head mouse, and eye gaze!

Mounting Made Easy

Due to the Inspire XL size it will be mounted and it is compatible to any mount that accepts VESA (almost limitless) allowing it to be attached to any wheelchair, table, or bed.

Inspire XL

Empowering all people to communicate with their world!
